---

As a meticulous Software Development student, I am actively seeking a co-op position to acquire hands-on experience and refine my industry-specific skills. I am dedicated to making substantial contributions to software projects, utilizing my analytical thinking, effective time management, and strong teamwork skills, gained through over 1.5 years of customer service experience.

### SUMMARY OF TECHNICAL SKILLS

- Proficient in **version control systems**, such as Git and in multiple **programming languages**, including Java, Python, and C++.
- Demonstrates the ability to **creatively analyze** complex problems and devise effective solutions through logical and systematic approaches.
- **Quick learner** with the ability to adapt to new technologies, methodologies, and programming languages.
- Proficient in **documenting code**, processes, and project details, enhancing the clarity and maintainability of software projects.
- Understanding and application of **Agile development** principles, facilitating iterative and collaborative software development practices

### EDUCATION

**Computer System Technician (Software Support) Sept 2022 to Present**  
Mohawk College Hamilton, ON

- Achieved a cumulative 75.2% GPA.
- Currently enrolled in Semester 3 of the two-year diploma program
- Expected completion: December 2024

**High Secondary Education in Science Stream July 2019 to May 2021**  
Sadhana Vinay Mandir Gujarat, India

- Achieved a cumulative GPA of 79.38% and 79.2% in science theory.

### INDUSTRY-RELEVANT TOOLS

- **Web Technologies:** HTML, CSS, JavaScript, AJAX, PHP
- **Software Quality testing:** Black box testing, White box testing
